

## **Liquid Fence® Deer & Rabbit Repellent Granular**

### ***Short Description:***

America's number-one selling deer & rabbit repellent now in a convenient granular for low-growing plants: flower beds, vegetable gardens, ground cover and lawns. Just shake to apply. It's eco-friendly and guaranteed-effective! Diatomaceous earth-based formula.

### ***Long Description:***

From the company that manufactures America's #1-selling deer & rabbit repellent comes a **new easy-to-apply granular** that provides 100% guaranteed protection for all low-growing plants. This unique biodegradable repellent is easy-to-apply on and around flower beds, vegetable gardens, ground cover and lawns; and it's safe for use on edible crops. And plants will love the diatomaceous earth-based formula, because it improves drainage and can enhance air circulation around plant roots.

Liquid Fence Deer & Rabbit Repellent Granular is eco-friendly and ready-to-use in 5 and 2 pound shaker bottles, covering approximately 500 square feet per pound. Best of all, no spreader is needed; just shake it where you need it!

Since Liquid Fence Deer & Rabbit Repellent Granular works on scent, deer and rabbits don't browse crops and plants, because their natural aversion to the scent never diminishes! And, unlike many competitor repellents, the long-lasting, rain-resistant formula doesn't require rotation with other repellent brands to remain effective.

### ***Gold Medal Winner, 2011 NRHA Packaging and Merchandising Awards***

**How to use:** Apply Liquid Fence Deer & Rabbit Repellent Granular evenly on and around low-growing plants including flower beds, vegetable gardens, ground cover and lawns. Vegetation will be protected up to 24 inches in height. Reapply every three to four weeks. Reapply after excessive rainfall. In areas where feeding pressure from deer and rabbits is intense, additional and/or more liberal applications may be needed. This will "train" the animals to avoid your yard! Do not apply to above ground edible crops immediately before harvest.
