

Liquid Fence® Goose Repellent

Short Description:

Avoid dangerous encounters with Canada Geese, ducks, and turkeys with Liquid Fence Goose Repellent. Our goose repellent makes the food supply, in the application area, very undesirable to geese, turkeys and ducks. The unpleasant food source will change the feeding habits of these birds, causing them to look for a more desirable feeding location. Why put up with mean, messy geese? Say goodbye with Liquid Fence Goose Repellent!

Long Description:

Winner of *Hardware Retailing Magazine's* 2008 Retailers' Choice Award!

Geese: Public nuisance number-one

With a Canada Goose population estimated at 6 million, and the possibility of that number doubling every five years – you need all the help you can get to rid your property of these ever-present birds. Damaging grass and other vegetation, polluting ponds and spreading disease, geese can actually endanger humans with aggressive, nasty behavior.

How Liquid Fence Goose Repellent works

The application of Goose Repellent makes the food supply in the treated area very undesirable to geese, turkeys and ducks. The elimination of the food source will completely change the feeding habits of these birds and cause them to look for a more desirable feeding location.
