

## **Liquid Net® for Horses, The Ultimate Equine Insect Repellent**

### ***Short Description:***

Designed to repel stable flies, black flies (gnats), ticks, fleas and mosquitoes. Available in easy-to-use sprays and big “horse-size” towelettes. Use it in the stable, corral and on the trail.

### ***Long Description:***

Liquid Net, the award winning, DEET free insect repellent, is now available for horses. Simply apply our **eco-friendly insect repellent** to your horse before hitting the trail, and enjoy safe and natural protection from flies, gnats, ticks, fleas and mosquitoes. The pleasant smelling formula works naturally to create an invisible barrier of protection. Insects are naturally repelled away from the horse and you.

Available in convenient sprays, saddle packs, and jumbo towelettes, Liquid Net Insect Repellent for Horses is the perfect choice for a great day with your horse.

We're so sure that you'll agree that **Liquid Net for Horses is the ultimate equine insect repellent**, we back it with a 100% money-back guarantee.
