

Liquid Fence® Snake Repellent Granular

Short Description:

Eco-friendly, Naphthalene-Free snake repellent in a convenient granular! Time-release granules are long-lasting and guaranteed effective against many common snakes. Easy shaker-bottle, means no spreader is needed! Lasts up to 4 weeks!

Long Description:

Liquid Fence Snake Repellent Granular has been tested and proven effective by an independent lab. Please note that repellency is unique to the individual snake, not just the species or genus. Therefore, results may vary.

How it works...

The unique combination of ingredients, in Liquid Fence Snake Repellent Granular, irritate and confuse a snake's chemosensory systems (sense of taste and smell). When these senses are baffled, the snake is unable to gather information about its surrounding environment, forcing it to look elsewhere to survive. Its timed-release biodegradable formula makes this repellent highly-effective and long-lasting.

Naphthalene-free means no worries! Scientific studies have shown that naphthalene presents health hazards to both humans and animals. Liquid Fence Snake Repellent contains NO Naphthalene.

How to use: For Overall Coverage: Apply Liquid Fence Snake Repellent Granular evenly on and around areas where snakes are present such as lawns, patios, sidewalks, rocks, flagstones and around exterior foundations. For a perimeter barrier: Create a 2 to 3 foot wide band around property, buildings or landscaped garden areas.

Liquid Fence Snake Repellent Granular shows repellency for up to 4 weeks. Reapply as needed. This product is intended for outdoor use.

Bullets:

- **Time-Release, long lasting**
