

## **Liquid Fence® Wasp & Hornet Killer Aerosol**

### ***Short Description:***

All-natural Liquid Fence Wasp & Hornet Killer kills on contact and comes with a 100% kill guarantee. The powerful spray reaches in excess of 15 feet, getting to most second-story eaves. Unlike water-based solutions, Liquid Fence Wasp & Hornet Killer is oil-based and electrically non-conducting up to 27,500 Volts.

### ***Long Description:***

**When homeowners have wasps and hornets around the home, they want them gone – fast.** New Liquid Fence Wasp & Hornet Killer, an eco-friendly, non-toxic aerosol spray, destroys the entire nest and comes with a “100% kill” guarantee.

The powerful spray reaches in excess of 15 feet, getting to most second-story eaves. No ladders or extra equipment are needed to reach out-of-the-way areas where many nests hide, allowing homeowners to “keep a safe distance” from the nest.

Available in convenient 13.5 oz aerosol spray cans, Liquid Fence Wasp & Hornet Killer has a pleasant botanical scent, leaves no pesticide residue and is safe to use around kids and pets.

Unlike water-based solutions that run the risk of potential electrocution when sprayed near electrical wires, Liquid Fence Wasp & Hornet Killer is oil-based and electrically non-conducting up to 27,500 Volts – safe to use against nests tucked near electrical outlets and wires.

### ***Bullets:***
